Tax receipt will be sent to email address provided.

MISTAKEN POINT CAPE RACE HERITAGE INC.

About Us

See where 'life got big' at Mistaken Point - located at the southeastern tip of the island of Newfoundland. Step lightly across the staggering cliffs of the North Atlantic, where the oldest multi-cellular fossils on earth are on vibrant display.

A place like no other - you'll find the world's largest and oldest collection of biologically complex marine life fossils; an impeccably preserved "Pompeii" of over 10,000 fossils from a prehistoric ocean floor, locked away in stone for over 565 million years.

You'll find no shortage of adventure and discovery here. Over the last few centuries, the Cape Race Lighthouse and Marconi Wireless Station have secured a place in history as witness to some of the pivotal moments and innovations that connected and shaped our world - including the rescue efforts of the Titanic!

Mistaken Point Cape Race Heritage Inc, a not-for-profit organization established in 1998, has been a driving force behind the Mistaken Point - Cape Race area. Our mandate focuses on preserving, protecting, developing, and promoting the natural, historic, and cultural resources in the region.
